MEMORANDUM FOR THE RECORD

SUBJECT: Public Buildings Amendments of 1972 - P.L. 92-313

STATINTL

1. Today in [REDACTED] absence I returned the call from Mr. Hudson Ragan, AEC/OGC (119-4383). The purpose of his call was to learn our position, vis-a-vis GSA, relative to the user charges authorized by the subject law. It was his thought that the positions of our respective agencies would be somewhat similar.

2. I told Mr. Ragan that after exploring the matter in some depth, which effort had included a discussion with GSA, we had concluded, albeit reluctantly, that the Agency was subject to GSA assessment. While certain AEC personnel may be adamant in their view that the assessment should be resisted, Ragan does not believe a legal case can be made. STATINTL
